GENERAL NOTES ON FRONT LOADER PRODUCTS:

„Front loaders without lowering protection do not meet the requirements of DIN EN 12525 in regard to the presence of persons in the danger area of the loader with raised load.“

„Front loaders without lowering choke do not meet the requirements for transport of persons; transport of persons requires the EU Typee testing according to the machinery directive 2006/42/EC.“

„Please make sure to observe the correct allocation of the lifting arm to the console installed on the tractor; information in the installation instructions under number (....)“

„Please note that you as dealer are obligated to verify the manufacturer's specifications on front loader use before selling and installing the front loader for the customer. Wilhelm Stoll Maschinenfabrik GmbH does not know and has no access to the respective current manufacturer's specifications. In the event of possible restrictions on the part of the tractor manufacturer regarding the front loader attachment and its use, e.g. road approval, warranty or others, the end customer must be informed of this in advance in writing. Any claims arising from non-compliance with the aforementioned duty to provide information and from non-compliance with the manufacturer's specifications are excluded.“

ALL BUCKETS IN FULL ACTION!

A TOUGH PERFORMER FOR YOUR PROFILINE NEXT GENERATION: THE PERFECT BUCKET FOR EVERY DEMAND, VERSATILE IN USE AND STRONG IN CONSTRUCTION:

- ✓ High level of robustness, low wear and low weight thanks to the use of high quality steel.
- ✓ Easy work even with sticky products – the conical shape, which opens up towards the cutting edge, makes this possible.
- ✓ The cutting edge can withstand the toughest stress – day after day, year after year.
